

## **Notification from: South East Alberta Rural Crime Watch Association**

*January 20, 2022*

We are pleased to announce the launch of the new Alberta RCMP mobile app!

The easy-to-use digital platform provides the public with organizational news, detachment locations and contact information, crime mapping and statistics, information on organizational initiatives such as Project Lock Up, and more. Users also have access to links for partner law enforcement agencies, mental health supports, Crime Stoppers, as well as our organization's social media accounts.

Our intent with this app is to help remove any barriers in accessing important Alberta RCMP resources. Though the app will not replace existing online tools, it will supplement our current web content and consolidate information into one mobile source.

This user-friendly platform has been developed as a means for Albertans to stay engaged and connected to us as their local law enforcement. We look forward to the ways in which the app will better inform and support the communities we serve.

The Alberta RCMP app is currently available for download via the Apple store and Android Play Store. For more information, please visit <http://infoweb.rcmp-grc.gc.ca/kdivision/rcmp-ab-app-eng.htm>.
